Hi Pete:

I hope you had a good time at your show. Thanks for all your hard work at the response.

A few things to get your feedback on.

- Architect
 - In the meeting this morning it was relayed that the architect was here Thursday and he would try to have a draft to us by this Friday.
 - Did you have any communication with him after his visit and is there any restrictions keeping us from backfilling now.
- Soil data
 - When you can, can I get an updated table with the status of the soil data? I need to give what we have to US Ecology so we can set up trucks as soon as we can.
 - Did we put an urgency on the alpha spec data preliminary results as we discussed?
 - Please have Weston create/provide tables of any soil results we have received.

We will discuss Steelworks separately

Thanks

Regards,
